Revision History

| Revision | Date | Reason for change | Applicable hardware version | Modified by |
|----------|--------|--------------------------------|-----------------------------|-------------|
| V1.0 | 2020.2 | Initial release | V1.0 | |
| V2.0 | 2020.6 | Add notes | V1.0 | |
| V2.0 | 2020.9 | Add line package configuration | V1.0 | 144 |

Electronic components and circuits are very sensitive to electrostatic discharge. Although our company designs anti-static protection for the main interfaces on the card when designing circuit board products, it is difficult to achieve anti-static safety protection for all components and circuits. Therefore, it is recommended to observe anti-static safety precautions when handling any circuit board component (including X506-B). Anti-static safety protection measures include, but are not limited to the following:

- a) The smart box should be placed in an anti-static bag during transportation and storage, and then the board should not be taken out during installation and deployment.
- b) Before touching the smart box, discharge the static electricity stored in the body: wear a discharge grounding wrist strap.
- c) Operate the smart box only within the safe area of the electrostatic discharge point.
- d) Avoid moving smart boxes in carpeted areas.

Precautions and after-sales maintenance

matters needing attention

Before using the product, please read this manual carefully and keep it for future reference;

- Please pay attention to and follow all warning and guidance information marked on the product;
- Please use matching power adapter to ensure the stability of voltage and current;
- Please use this product in a cool, dry and clean place;
- Do not use this product in cold and hot alternate environment to avoid condensation damage components;
- Do not splash any liquid on the product. Do not use organic solvent or corrosive liquid to clean the product;
- Do not use the product in dusty and messy environment. If it is not used for a long time, please pack the product;
- Do not use in the environment with excessive vibration, any dropping or knocking may damage the circuit and components;
- Do not plug and unplug the core board and peripheral modules when power is on;
- Please do not repair or disassemble the product by yourself. In case of any fault, please contact our company in time for maintenance;

- Do not modify or use unauthorized accessories by yourself, and the damage caused will not be warranted;

After sales maintenance

1) Warranty period

- Base plate, core plate : 3 year (non-human damage)
- Other peripherals sold by the company: 1 year (non-human damage)

2) Warranty description

- Within 7 days: the product (base plate, core module) is not damaged by human, our company will replace / repair it free of charge, and bear the return freight; (because the core module needs NVIDIA to confirm that it can meet the requirements of repair, it will take a long time, we will coordinate as soon as possible, please forgive for the inconvenience)
- From 7 days to 36 months: the product (base plate, core module) is not damaged by human, our company will repair it free of charge, and bear the return freight; (because the core module needs NVIDIA to confirm that it can meet the requirements of repair, it will take a long time, we will coordinate as soon as possible, please forgive for the inconvenience)
- Artificial damage in more than 3 year or 3 year: the product (carrier plate) shall be tested after it is sent to the customer, and the customer shall be informed of whether it can be repaired and the maintenance cost in detail. After reaching an agreement, the product shall be repaired and returned to the customer, and the company shall bear the return freight;
- The starting time shall be subject to the date of express delivery receipt;

3) Contact information

Official website: www.realtimesai.com

Taobao website: <https://shop340963258.taobao.com/>

Address: 11, block B, Heping Xiyuan, Heping West Street, Chaoyang District, Beijing

Attention: RMA

Tel: 010-84284669 84280996

Mailing notice: contact with the company's sales department in advance, arrange technical support personnel to check and eliminate errors caused by misoperation as soon as possible, fill in the product after-sale return to factory maintenance form after verification, and send it to rma@realtimes.cn Mail box, please attach the list of items to facilitate verification, so as to avoid loss and loss in the process of express delivery. The company does not receive any delivery

Technical support and development customization

1. Scope of technical support

- 1) The company releases the electrical characteristics and use of industrial carrier boards and modules;
- 2) Physical dimension of hardware, relevant structure diagram and line sequence definition of specific interface;
- 3) Burn in verification of all BSP support packages provided by the company;
- 4) The company released burn environment construction, entry-level use. ;
- 5) Various peripheral module drivers released by the company;
- 6) The company's product fault diagnosis and after-sales maintenance services;

2. Scope of technical discussion

Due to the wide range of embedded system knowledge and various types of involvement, we can not guarantee that all kinds of questions can be answered one by one. The following content is not available for technical support, only suggestions can be provided.

- 1) Knowledge beyond the course published by our company;
- 2) Specific software program design;
- 3) Technical support for industrial carrier not issued by the company;
- 4) All kinds of driving support for industrial carrier board not issued by the company;
- 5) Hardware principle and drive design of peripheral module not issued by our company;

3. Technical support mode

- 1) Official website or email questions (recommended):

<https://www.realtimesai.com/cn/download.html> techsupport@realtimes.cn

- 2) Official Taobao through Alibaba Wangwang consultation: <https://shop340963258.taobao.com/>

- 3) Wechat group consultation (wechat Group No. consults Taobao customer service or sales, and Taobao purchase order No. needs to be provided for verification);

- 4) Technical support email: techsupport@realtimes.cn

- 5) Tel: 010-84284669

4. Technical support time

Monday to Friday; 8:30-12:00 am; 1:00-17:30 PM;

The company arranges the rest according to the national legal holidays, during which it may not be able to provide technical support, please send the problem to the technical support email. We will reply to you as soon as possible on weekdays.

5. Complaints and suggestions

If you are not satisfied with us or have suggestions, you can send an email to yu.qin @ realtimes.cn For feedback, please call 010-84284669 for further improvement.

6. Customized development services

The company provides the embedded operating system driver based on NVIDIA Jetson series and the paid customized development service of hardware carrier board to shorten your product development cycle.

Please email the request to info@realtimes.cn

Data acquisition and subsequent update

1. Access to information

Download on our website

The company's website contains supporting information of its products, including product user manual, NVIDIA Jetson series module data manual, BSP driver support package for carrier board, supporting peripheral driver files, interface test verification method, FAQ, system burning guide, etc. get into www.realtimesai.com, select "data download" in the navigation bar, find the data you need, and click download.

2. Subsequent updates

Updates of subsequent documents, BSP, driver files and other official account will be updated in time. We will pay close attention to our developments in order to ensure that your information is up to date. We will push through WeChat public.

1 Product introduction

X506-B is a new cloud intelligence box™ designed based on NVIDIA Jetson™ NANO series modules. It is a NANO module with built-in integrated 128-core Maxwell™ architecture GPU. It is pre-loaded with Ubuntu 18.04 operating system and has the AI processing capacity of 0.5TFLOP floating-point operation. Using super strong light aluminum alloy material design, cooling fan type, have excellent heat dissipation capacity, the overall size is small and light, good structure of human body engineering, obligate has easy wing structure, installation site 7 x24 hours long MTBF and stable operation ability, can be applied to robots, unmanned delivery vehicles, intelligent brake machine, intelligent selling customized machine, such as container is the edge of the end calculate force deployment AI ideal vehicle for the in-depth study.

The external interface resources provided by X506-B include: 1 X GbE, 1 x Mini PCIE, 1 x USB3.0, 1 x USB2.0, 1 x USB OTG, 2 x 3.3V UART, 1 x FPD-Link III, 1 x MIPI, 12 X GPIO(optional), 1 X Mini HDMI, 1 x Micro SD, 1 x Micro SIM, 4G LTE(optional), the products have passed CCC certification and CE certification of EU.

1.1 Features

- Compatible with nvidia Jetson NANO module
 - ◆ GPU: NVIDIA Jetson™ NANO 128 core with NVIDIA Maxwell™ architecture (1 trillion floating-point operations per second),
 - ◆ CPU: ARM Cortex-A57 (quad-core)
 - ◆ Operating system: Linux pre-installed
 - ◆ Memory: 4GB LPDDR4
 - ◆ Storage: Built-in 16GB or expandable TF card slot
- One USB3.0, One USB2.0, One USB2.0 OTG
- One Micro SD port
- One SIM card port
- Two uart prot compliance with 3.3V voltage level
- One Gigabit Ethernet
- Two I2C and two SPI
- One Mini-PCIE (expandable: PAL / HD-SDI video capture, GPS / Beidou module, AD / DA module, 4G module, storage module, etc.) interface
- One FPD-LINK III and one MIPI camera port
- One Mini HDMI 2.0
- Size: 115mm×70mm ×61mm
- Power input: +5V
- Temperature: -25℃~+65℃
- Weight:365g

1.2 Ordering Information

| Model Options | Functional Description |
|---|---|
| X506-B | NANO Cloud intelligence box air-cooled version, built-in NANO B01 module, pre-installed Ubuntu 18.04, built-in 16GB eMMC; 1x USB 3.0,1 x USB 2.0,1 x USB OTG,1 x miniHDMI, 1x GbE, 1x Micro SD, 3x 3.3V UART, 2 x SPI, 2 x I2C, 1x MiniPCIe, 4G module /mSATA optional; Power indicator light, power switch button, -20 -- +65°C; Including cable package (HDMI, serial port, SPI, I2C); Includes power adapter, provides Ruitai new Era RTSO-6001B Linux4Tegra software support package, passed THE 3C and CE certification |
| X506-BS | NANO Cloud intelligence box air-cooled version, built-in NANO B01 module, pre-installed Ubuntu 18.04, built-in 16GB eMMC; 1x USB 3.0,1 x USB 2.0,1 x USB OTG, 1x miniHDMI, 1x GbE, 1x Micro SD, 3x 3.3V UART, 2 x SPI, 2 x I2C,FPD-Link,1 x MiniPCIe, 4G module /mSATA optional; Power indicator light, power switch button, -20 -- +60°C; Including cable package (HDMI, serial port, SPI, I2C); Includes power adapter, provides Ruitai new Era RTSO-6001B Linux4Tegra software support package, passed THE 3C and CE certification |
| RTS-NANO-AC/DC | Power Adaptor for X506-B/-S, 100-240VAC/5V/4A,20W |
| RTS-IMX390-F120(optional) | FPD-LINK III camera |
| Cable-RTS-XF120(optional) | Cable for FPD-LINK III camera, length X=2,5,10(m) |
| RTSV-6911i (optional) RTSV-6901 (optional) RTSV-6941 (optional) | Mini-pcie Video Capture Card, RTSV-6911i (8-channel D1 NTSC/PAL video input), RTSV-6901 (single-channel SDI video input), RTSV-6941 (single-channel HDMI Video Input) |
| Me909s-821 (optional) | mini-PCIe Full netcom 4G module |

1.3 Wiring package configuration

| Component | Number | Functional Description |
|-----------------------------------|--------|---|
| Micro HDMI turn HDMI connector | 1 | Convert Micro HDMI interface to standard HDMI interface |

2 External interface function and location

X506-B FRONT

X506-B BACK

3 Installation and use

3.1 How to use Smart Box

- a) Ensure that the voltage of all external systems is turned off
- b) Install necessary external cables. (Such as: the display cable connected to the HDMI display, the power input cable to power the system, the USB cable connecting the keyboard and mouse ...)
- c) Connect the power cord to a power source.
- d) Connect to the power supply of X506-B, the system will start working after power on.

3.3 Recovery MODE

Jetson NANO core modules can work in normal mode and Recovery mode. In Recovery mode, you can perform file system update, kernel update, boot loader update, BCT update and other operations.

To enter Recovery mode:

- a) Turn off the system power supply.
- b) Use a USB cable to connect the OTG port of the X506-B and the USB port of the Jetson development host.
- c) Short-circuit the 1 and 9 pins of the Button connector to power the system. Keep the power supply for more than 3 seconds, and then disconnect the 1 and 9 pins of the Button connector.
- d) The system enters Recovery mode, and you can perform subsequent operations at this time.

4 Connectors Description

4.1 Mini HDMI connector

| | | |
|-----------------|-----------------------|---|
| Function | HDMI output interface |  |
| marking | HDMI | |
| Type | Mini HDMI connector | |

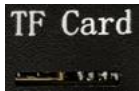

4.2 Ethernet connector

| | | |
|-----------------|----------------------------|--|
| Function | Gigabit Ethernet connector |  |
| marking | Ethernet | |
| Type | RJ45 | |

4.3 USB3.0 connector

| | | |
|-----------------|-------------------|---|
| Function | USB3.0 connectors |  |
| marking | USB3.0 | |
| Type | USB3.0 Type-A | |

4.4 SD card connector

| | | |
|-----------------|-------------------|---|
| Function | SD card interface |  |
| marking | TF CARD | |
| Type | Micro SD (TF) | |

4.5 WiFi antenna connector

| | | |
|-----------------|------------------------|---|
| Function | WiFi antenna interface |  |
| marking | AT1 AT2 | |
| Type | ipex to sma female | |

4.6 Power input port

| | | |
|-------------------|--------------------|---|
| Function | Power input port |  |
| marking | Power Input | |
| Type | 2Pin interface | |
| Pin define | Input voltage: +5V | |

4.7 OTG-USB2.0 connector

| | | |
|-----------------|---------------------|--|
| Function | USB2.0 connectors |  |
| marking | USB-OTG | |
| Type | USB2.0 Micro Type-B | |

4.8 FDP-LINK III connector

| | | |
|-----------------|--------------------------------------|---|
| Function | FDP-LINK III camera input connectors |  |
| marking | FDP-LINK camera port | |
| Type | | |

4.9 Function connector

| | | | | | |
|-------------------|---------------|---------------|------------|---------------|---|
| Function | Function port | | | |  |
| marking | URT/I2C | | | | |
| Type | DB9 | | | | |
| Pin define | Pin | Signal | Pin | Signal | |
| | 1 | UART2_TXD | 2 | UART2_RTS | |
| | 3 | UART3_TXD | 4 | UART3_RTS | |
| | 5 | GND | 6 | UART2_RXD | |
| | 7 | UART2_CTS | 8 | UART3_RXD | |
| | 9 | UART3_CTS | | | |

| | | | | | |

5 Hardware update history

X506-B hardware update history

| edition | Updata description |
|---------|--------------------|
| V1.0 | Initial release |

6 Product size diagram

7 Software/BSP Details

The X506-B board works on systems that burn using the official original NVIDIA Linux For Tegra (L4T) ,HDMI, gigabit Ethernet, USB2.0, serial port, GPIO, SD card, I2C bus, fan interface, can be supported. But Mini-PCIe, USB3.0, can't work normally.

The full support of X506-B rugged machine interface needs to load supporting driver patches.

NVIDIA LT4 package can be downloaded from the following link

<https://developer.nvidia.com/embedded/linux-tegra>

RTSS-X501N patch support package download

Terms of Warranty

Important note

Each embedded product provided by Realtimes Technology is free from any defects in material and process, fully in line with the specifications officially issued by the original factory.

Realtimes Technology warranty covers the original products. If the parts configured by the dealer are out of order, please consult with the dealer to solve the problem. All the baseplate and core modules provided by Ruitai New Era (Beijing) Technology Co., Ltd. are guaranteed for 3 years, while the other peripherals are guaranteed for 1 year (life-long maintenance service is provided if the warranty period is beyond the warranty period). The warranty period starts from the date of delivery, for the products repaired within the warranty period, the repair parts shall be extended for 12 months. Unless notified by Realtimes Technology, the date of your original invoice shall be the date of shipment.

How do I get warranty services

If the product does not work properly, Please contact Realtimes Technology or dealer for warranty service, please show invoice when product warranty (this is the proof for you getting warranty service).

Warranty solution

When you ask for warranty service, please follow Realtimes Technology warranty process. You will need to receive your first diagnosis from a technical engineer by phone or by email, at that time, we need you to cooperate with us to fill in all the questions on the RMA form provided by us. Once we accurately determine the cause of the fault and the location of the damage, we will provide the charge list for the out of warranty products, which needs your confirmation. Realtimes Technology keep the right to repair or replace the products. If the product is replaced or repaired, the replaced faulty product or the repaired and replaced faulty parts will be returned to Realtimes Technology.

For products under warranty, the customer shall bear the freight when the product is returned to the manufacturer, Realtimes Technology will bear the ship cost of the products after maintenance.

The following conditions are not covered by the warranty terms

- a) Improper installation, improper use, misuse and abuse of products (Overloading, for example).
- b) Improper maintenance and storage (Such as fire, explosion, etc) or natural disasters (such as lightning stroke, earthquake, typhoon, etc)
- c) Personal unauthorized changing the product (such as changing circuit characteristics, mechanical characteristics, software characteristics, Conformal coating).
- d) Other failures which are clearly due to misuse (such as overvoltage, polarity reversal, the pin bent or broken, the wrong connection, drop damage, transportation damage, damage due to over operating temperature and so on).
- e) The logo and part number on the product have been deleted or removed.
- f) The product is out of warranty.

Special concerns

If the same fault multiple occurrence for the products, in order to find out the reason causing the problem, we will request the users to provide the specific documents or information of peripheral equipment, such as monitor, I/O boards, cables, power supply, diagram and structure of the system, etc. If such documents or information are not available, we have the right to refuse to perform the warranty, the repairments will be charged accordingly.

Rev.C 6/2020
